

## 'Internal Pairs & Combinations Range'

Engineered doors are veneered on to a solid core base, with a solid matching lip of approx. 12mm, therefore only suitable for minimal trimming,

All the doors on these pages are supplied sanded, ready for varnishing or staining.

(some doors illustrated are stained to show the range of colours that can be achieved on site)

Size availability in each design will be listed on our Internal Pairs & Combination Price List

Please note: due to photographic, lighting and printing limitations, colours of doors and graining in timber are guide lines only

Please Note: All the doors on these pages have matching single doors, please see appropriate leaflet

### 'Engineered Custom Panel Combinations'

Select the desired timber and size you require, then decide the combination of panels from a choice of 3 panel designs.

You may wish to have full wooden panels or glass panels, or be adventurous and try a mixture of wood and glass.. the choice is completely down to you.
